Generate Lorem Ipsum filler text easily

As there are many languages in the World, you can choose from a variety of base texts so you cover not only normal letters but also accents, special characters and other alphabets.

The Lorem Ipsum text used today can be tracked down to the printing press industry in the 16th century. A scrambled version of Cicero's philosophical book "De Finibus Bonorum et Malorum", written in 45 BC, to create filler text. The text became popular among printers and typesetters because it provided a standard dummy text that could be used to showcase different fonts, layouts, and designs without the distraction of meaningful content.

Lorem ipsum is a placeholder text commonly used in the design and printing industry. It is a Latin looking text that has been used since the 16th century as a filler text when the final content is not yet available. Lorem ipsum is used to give an idea of the visual layout of a book, document or webpage without being distracted by the real content.

In the 1960s, the popularity of Lorem Ipsum increased with the release of Letraset character transfer sheets that included passages of the text. Since then, it has become even more widely used in the design and printing industry, particularly with the advent of desktop publishing software such as Aldus PageMaker, Pages and Microsoft Word, which include versions of the Lorem Ipsum text.
